INDUSTRY INSIGHT WEBINAR SERIES

Date/Time

February 16, 2011 @ 12:00 p.m. CST

Duration

90 minutes total; 60 minute presentation followed by 30 minutes of Q&A

Presentation Summary

This presentation brings clarity and understanding to evaluating and interpreting the oil analysis data into meaningful information directly related to the condition of the operating equipment. It examines many of the various fluid testing procedures, including a brief look at the purpose and limitations of each test, to help provide better value from used oil analysis.

Meeting Details

1. Make sure you have computer speakers or headphones. Otherwise, you will not be able to hear the presentation!
2. Join 10-15 minutes before the meeting time to ensure you meet the computer requirements. For more information on computer and/or software requirements, visit www.webex.com. Under the Support tab, click on Technical Support and then System Requirements.
3. If you have questions before, during, or after the event, you can contact us at any time at (847) 825-5536, or at university@stle.org.

Reasons to Attend

1. See a well-known presenter provide information on subjects relevant to you, utilizing their expertise in the field.
2. Ask questions and get responses in real time for an interactive opportunity.
3. Get access to the recording and other event materials including presentation slides and articles relevant to the topic for future reference.
4. Receive credit for your attendance and participation. You will receive **1.5** Continuing Education Units (CEUs) for attending, which can be used towards recertification.
