How to Find the Technical Information You Need, When You Need It!

STLE Membership Webinar
Feb. 1, 2012
Presenter: Karl Phipps
Associate Manager of Publishing & Communications
(STLE HQ staff – Park Ridge, IL)

Primary areas of responsibilities:

• Managing Editor – Tribology & Lubrication Technology (TLT) magazine (STLE’s official monthly publication)

• Associate Editorial Director – Tribology Transactions (Peer-Reviewed technical journal)
STLE Member Publications

Update My Demographic Information
Please note: Some Profile and Contact information can only be updated by STLE staff. Please call our offices at 1 (847) 825-5536.

Membership dues are non-refundable. Your paid thru date will be updated on the next business day.

Conference information
You are not enrolled in any upcoming conferences.
Launched in October 2003, TLT was created to aid in the technical education and professional development of STLE members and industry colleagues. Each issue is packed with feature articles, best practice analysis, industry surveys, interviews with leading professionals, resources, lubrication fundamentals and more!

Through its print and digital editions, TLT delivers world-class technical content to some 13,000 leading lubricant professionals each month.
This issue of the digital TLT is sponsored by MÜNZING, a global specialty additive supplier providing unlimited technical service to all customers. We specialize in providing antifoams that offer the optimum, cost-effective solution for your specific application.

Digital TLT: The Advantages

• North American readers receive the digital issue two weeks earlier than the print version. International readers as much as *six weeks earlier*.

• Text versions of articles can be translated into 38 languages, including Japanese, Chinese, Korean, Hindi, Spanish, French and German.

• You can conduct a keyword search of all digital editions.

• You can e-mail individual articles or even the entire magazine to a friend or colleague.

• You can read the issue online or download to your desktop or laptop computer.

• If you’re a TLT advertiser, your marketing message now reaches an audience of 13,000 readers, about 6,000 more than the print edition.
Members Only Area – TLT articles

• Access hundreds of TLT articles through the Members Only portion of the STLE Website (www.stle.org).

• Log in with your five-digit STLE membership number and password. NOTE: Password is the first two letters of your last name (family name) followed by your STLE membership number.

STLE’s quarterly peer-reviewed journal features scientific and technical papers in the field of tribology. Tribology Transactions is read and referenced by nearly 1,000 leaders in the field of tribology research in countries around the world.
Online Access Features: TT journal

• Full access available to all STLE members.

• Can search current volume plus a full searchable archive of over 50 years worth of tribology research.

• Download text and PDF versions of papers for free 24/7.

• Receive e-mail alerts when any Tribology Transactions paper has been cited in any journal or when a new issue is published online.

• Log in with your five-digit STLE membership number and password in the Members Only area of the STLE Website (www.stle.org). NOTE: Password is the first two letters of your last name (family name) followed by your STLE membership number.
Request for Papers – ScholarOne Manuscript Central

STLE is looking for new and useful papers on every aspect of lubrication, including research, design, application and maintenance. For more information on how to submit a paper for consideration in Tribology Transactions or access an Author’s Guide and Keyword List materials, log on to: http://mc.manuscriptcentral.com/tribtrans.
Tribology Letters is devoted to the development of the science of tribology and its applications. It serves as a depository for new information on the properties of surfaces and interfaces in relative motion, among which are friction, lubrication, wear, adhesion, failure and contact phenomena. The journal facilitates communication and exchange of seminal ideas among thousands of practitioners who are engaged worldwide in the pursuit of tribology-based science and technology.
Online Access Features: TL journal

• Full access available to all STLE members.
• Can search current volume plus a full searchable archive database.
• Download text and PDF versions of papers for free 24/7.
• Receive e-mail alerts when a new issue is published online and much more!
• Log in with your five-digit STLE membership number and password in the Members Only area of the STLE Website (www.stle.org). NOTE: Password is the first two letters of your last name (family name) followed by your STLE membership number.
TRIBOLOGY LETTERS – Full Journal Contents Now Available Online

TRIBOLOGY LETTERS has been one of STLE official publications since 2002. Springer Science and Business Media, Inc. now provides all STLE members with free online access to full contents of the journal. This is provided through the Members Only portal of the STLE website at www.stle.org.

STLE salutes Springer for providing this generous service in support of STLE’s mission, which is:

- To advance the science of tribology and the practice of lubrication engineering in order to foster innovation, improve the performance of equipment and products, conserve resources and protect the environment.

TRIBOLOGY LETTERS mission is to facilitate communication and exchange of seminal ideas among the thousands of practitioners who are engaged worldwide in the pursuit of tribology-based science and technology. The journal encourages the cross-fertilization of ideas by rapid and widespread dissemination of the results of frontier research and development on a global basis.
