

## **Tribo Testing**

Technical Committee on Tribo testing is soliciting quality papers and oral presentations for the 66th STLE Annual Meeting & Exhibition, May 15-19 at the Atlanta Hilton in Atlanta, Georgia.

We are looking for papers that address either theoretical or experimental aspects of friction, adhesion and wear testing of lubricants, coatings and bulk biomaterials. An emphasis on advanced test procedures, data analysis and test equipment will be appreciated.

You are cordially invited to participate in our meeting. Whether you are going to give an oral presentation or compliment it with a publication, please prepare and submit your abstract online at <http://stle2011.abstractcentral.com>

**Deadline: October 1, 2010.**

You do not need to prepare a manuscript to be included in the Annual Meeting program. However, you are invited and encouraged to submit a manuscript for a possible publication in the STLE's peer-reviewed journal, Tribology Transactions.

If you need any further information, please contact any of us at your earliest convenience.
