

Power Generation Technical Committee

72nd STLE Annual Meeting & Exhibition, May 21-25, 2017, Hyatt Regency Atlanta, Atlanta, Georgia (USA)

Dear Colleagues,

The Power Generation Technical Committee is exploring Papers for the 72nd STLE Annual Meeting & Exhibition that will be held on May 21-25, 2017 in Atlanta, Georgia. Any topic related to Power Plant Engineering and Lubrication is welcome for presentations. Following areas can be considered but are not limited to:

- ◆ Modern Gas & Steam Turbine Oil
- ◆ Power Plant Equipment Lubrication
- ◆ Advancements in energy efficiency
- ◆ Practical aspects and issues of power generation lubrication
- ◆ Investigations, comparisons, or improvements in condition monitoring testing
- ◆ Improved maintenance strategies for extending equipment and oil life, including case histories
- ◆ Contamination control
- ◆ Analysis of sludge and varnish
- ◆ Advanced lubricant development
- ◆ Advancement in Filtration
- ◆ Electrostatic phenomena
- ◆ Fire Resistant Fluids
- ◆ Health & Safety issues with Power Plant Lubricants

Presentations and papers in all Power Generation related areas are welcomed.

Please mark your calendar and submit your 100-150 word abstract electronically (<https://stle2017.abstractcentral.com/>) no later than: **October 1st, 2016**

Information on the topic areas to be covered at the 2017 Annual Meeting can be found on www.stle.org. The processes and topic areas can be found under "Call for Papers". Please check the Session that says "**Power Generation**".

Looking forward to welcome you at Power Generation Session in Atlanta, Georgia. Please contact following for any question.

Khalid Malik, PSC, Khalid.malik@opg.com

Axel Wegner, Vice PSC, axel@ccjensen.com.

Please feel free to extend this invitation to your colleagues and industry peers.

Thank You.
