

TESTING IN SOFT TRIBOLOGY
A JOINT SESSION BETWEEN
BIOTRIBOLOGY AND TRIBOTESTING

CALL FOR PAPERS

Dear Friends and Colleagues,

On behalf of the technical committees in Biotribology and Tribotesting, we invite you to present your research at the **Joint Session on Testing in Soft Tribology** at the 74th STLE Annual Meeting and Exhibition. This conference is the premier event for the tribology and lubricant communities and will take place **May 19-23, 2019** in Nashville, Tennessee, USA.

You may submit an abstract (not exceeding 150 words) to this session through STLE's online abstract submission portal: <https://stle2018.abstractcentral.com/> by indicating the *Testing in Soft Tribology* joint session as your topic during the abstract submission process. Please note that the deadline for submission is **Monday, October 1st, 2018**.

In this joint session, we would like to highlight research that focuses on novel test methods and techniques in Biotribology, Food Tribology, or other biologically relevant interfaces. Suggested topics within this focus area include, but are not limited to:

- Novel measurement tools and test methods for biotribology (artificial joints, dental/oral tribology)
- Case studies for evaluating natural and biological interfaces
- Measurement standards for testing in biotribology, food tribology, anatomical tribology and other biological applications

Please feel free to forward this to your colleagues. We hope to see you in Nashville!

Sincerely yours,

Gagan Srivastava
