CALL FOR PAPERS

Discussion Roundtables – Idea Exchange

Building upon the innovative culture of STLE, a creative session format to deal with academic topics is being organized by STLE’s Annual Meeting Program Committee. This Discussion Roundtable is open to all technical tracks.

The Idea Exchange will be held during the 2024 STLE Annual Meeting on Wednesday afternoon, May 22, 2024, in the format of discussion roundtables. This format enables both an open discussion with many participants and an easy recap and documentation. For every table, a host proposes a topic for the discussion roundtable and the participants will discuss and share their opinions on the proposed topic. By using a writable tablecloth, a creative and open atmosphere is generated to stimulate and communicate ideas. The big benefit for the host is that he/she/they may propose a topic of interest and receive opinions and viewpoints of all the other participants. The Discussion Roundtable session typically takes lasts 60 to 90 minutes but is open-ended.

Please apply to host a table and submit an abstract with your proposed topic through the abstract submission site: https://stle2024.abstractcentral.com by selecting the “Discussion Roundtable” category from the drop-down menu.

The abstract submission deadline is October 2, 2023.
