STLE Foundations of Lubrication Engineering Course

Oct. 3, 2018
Holiday Inn Express
Atlanta Airport
4601 Best Road
College Park, GA 80887

STLE's Foundations of Lubrication Engineering Course offers an overview of the first seven topics on STLE's Lubrication Specialist Learning Pathways. This course serves as a foundation for individuals new to the lubrication industry, giving attendees a strong background level of information for them to build upon.

Registration for the course is $300 for STLE members and $450 for non-members. The non-member price comes with a year of STLE membership.

Course registration includes the full course book with presentation slides as well as course notes. Course books are provided in either print or digital formats.

For more information, please contact STLE's Education Manager, Tom Heidrich at **theidrich@stle.org** or call STLE Headquarters at (847)825-5536.

Topics covered include:

- Base Oils
- Additives
- Friction & Tribology
- Grease
- Hydraulics
- Gears
- Bearings
