

2026 Mechanical Specifications & Submission Requirements

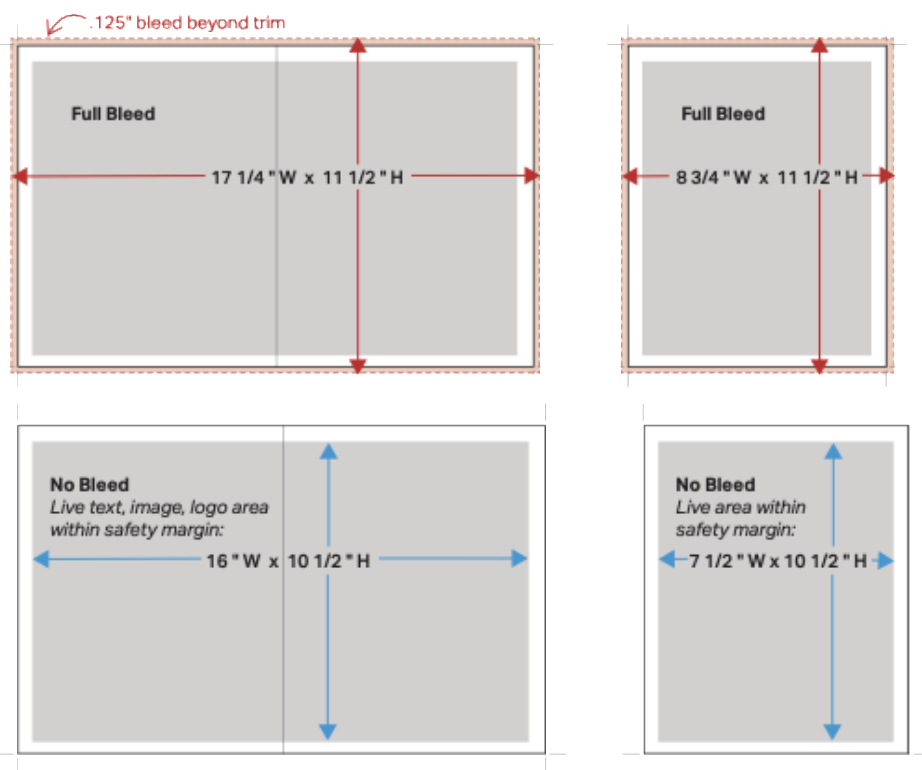

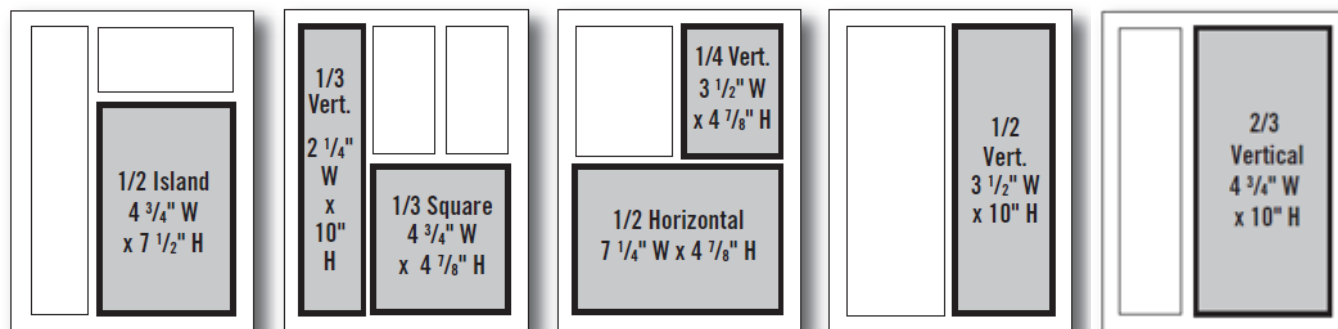

Tribology & Lubrication Technology (TLT) Magazine

Magazine & File Specifications

Trim Size	8.5" W × 11.25" H
Bleed	Extend at least 1/8" (.125") beyond the trim edge on all sides for full-bleed ads
Safety Margin	Full page ads: Keep all live text, images, and logos at least 0.5" from the trim edge and gutter margin on full-page ads (exception: legal disclaimers may be 1/4" (0.25") from the bottom edge)
Crop Marks	Required on all full-page ads. Add via Marks and Bleeds settings when exporting your PDF.
File Format	Press Quality PDF preferred. TLT does not accept low-resolution files.
Resolution	Minimum 300 dpi. Higher resolution is always acceptable.
Color Mode	CMYK for print. RGB files may result in color shift during production.

Ad Dimensions

Notes

- File Specifications.** Advertiser is responsible for submitting ad materials that conform to TLT's published specifications, including correct dimensions, resolution, file format, color mode, bleed, and crop marks. Specifications are provided in this document and are available upon request.
- Right to Resize.** TLT reserves the right to resize or reformat any ad submitted at incorrect dimensions to fit the designated ad space. Advertiser assumes full responsibility for any reduction in image or text quality resulting from resizing. TLT is not liable for quality issues that arise from advertiser-submitted files that do not meet specifications.
- For each TLT issue, a Dropbox upload link will be sent to you.
