

Lubrication Fundamentals Technical Committee STLE 71th Annual Meeting & Exhibition

Lubrication Fundamentals technical committee is soliciting papers for presentation and/or Posters for the STLE 71th Annual Meeting & Exhibition, May 15-19, 2016 at Bally's Las Vegas Hotel and Casino, Las Vegas, Nevada, USA. Papers can be based on experimental, theoretical and/or case studies. The following focus areas of lubrication are highlighted along with a general session that will include presentations that do not fit into any of the listed categories.

- Oil additives
 - o Fuel economy
 - o Oxidative Stability
 - o ZDDP fundamentals
 - o Ashless anti-wear
 - o Corrosion inhibition
 - o Polymer rheology
- Boundary/mixed/Elastohydrodynamic Lubrication
- Advanced Surface Engineering/Solid Lubrication
- Nanotribology/Fundamental Limitations
- Ionic Liquids
- Bridging Lab Testing and Field Experience
- Correlation between Friction and Wear

Submit Your 2016 STLE Presentation Abstract(s) at <https://stle2016.abstractcentral.com/>. You will access a set of instructions that direct you on how to create your own account. Please check the Session "Lubrication Fundamentals".

Deadline: October 1st 2016

For questions related to Lubrication Fundamentals abstract submissions, please contact Brendan Miller, Chevron Oronite LLC (PSC) Brendan.miller@chevron.com or Carl Bennett (vice-PSC): Carl.Bennett@AftonChemical.com
